

EXCERIA PLUS G2 NVMe™ SSD

Unleash Your System

Capacity

500GB, 1TB, 2TB

Max Sequential Read/Write Speed¹

3,400/3,200 MB/s

Max Random Read/Write Speed²

500GB: 650,000/600,000 IOPS
1TB, 2TB: 680,000/620,000 IOPS

Features

BiCS FLASH™
NVMe™ 1.3c Technology
M.2 2280 Form Factor
PCIe® Gen3 x4 Lane
SSD Utility Management Software

Your high-performance gaming system needs high-performance storage. The KIOXIA EXCERIA PLUS G2 SSD series is built to deliver enthusiast-class PCIe® performance thanks to an 8-channel controller that brings out the full potential of its BiCS FLASH™ 3D flash memory. This new enthusiast-class SSD series offers up to 2 TB of capacity in a M.2 2280 form factor suitable for both desktops and mobile PCs.

Game-Changing Storage

Don't let your storage be outclassed. The KIOXIA EXCERIA PLUS G2 SSD series offer high performance storage for enthusiasts and hardcore gamers that feel held back by commodity storage hardware. With up to 3,400 MB/s sequential read speed¹ and 3,200 MB/s sequential write speed¹ available to you, your system won't be deprived of the storage bandwidth it needs to excel.

Game On!

Why keep using an interface that was designed for hard drives? Utilizing the latest NVMe™ 1.3c technology, the EXCERIA PLUS G2 SSD series reduces latency in your system's I/O path between your SSD and your CPU, resulting in smooth and responsive performance.

Small and Mighty

Featuring a thin and light M.2 2280 form factor, the EXCERIA PLUS G2 SSD series plugs directly into the motherboard, reducing additional cable clutter for a sleeker system.

Cutting Edge 3D Flash Memory

Each EXCERIA SSD is built with BiCS FLASH™ and a vertically stacked cell structure, delivering a cutting edge storage experience.

SSD Utility Management Software

The SSD utility management software was designed to help your KIOXIA drive thrive and lets you be in control of maintenance, monitoring, and more!

We highly recommend you install and update to the latest version to maximize your drive's performance and check its Percentage Life Left using the health gauge.

¹ EXCERIA PLUS G2 SSD: Sequential speeds are measured with CrystalDiskMark 6.0.2 x64, Q=32, T=1. These values are the best values obtained in a specific test environment at KIOXIA Corporation and KIOXIA Corporation warrant neither read nor write speeds in individual devices. Read and write speed may vary depending on a device used and file size read or written.

² EXCERIA PLUS G2 SSD: 4KiB random performance is measured with CrystalDiskMark 6.0.2 x64, Q=32, T=8. These values are the best values obtained in a specific test environment at KIOXIA Corporation and KIOXIA Corporation warrant neither read nor write speeds in individual devices. Read and write speed may vary depending on a device used and file size read or written.

³ EXCERIA PLUS G2 SSD: Definition and conditions of TBW (Terabytes Written) are based on JEDEC standard: JESD219A Solid-State Drive (SSD) Endurance Workloads, July 2012, and defined for the service life.

⁴ KIOXIA Corporation defines "RoHS Compatible" products as products that either (1) contain no more than a maximum concentration value of 0.1% by weight in Homogeneous Materials for lead, mercury, hexavalent chromium, polybrominated biphenyls (PBBs), polybrominated diphenyl ethers (PBDEs), bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP) and diisobutyl phthalate (DIBP) and of 0.01% by weight in Homogeneous Materials for cadmium; or (2) fall within any of the application exemptions set forth in the Annex to the RoHS Directive⁵. This does not mean that Kioxia Corporation products labeled "RoHS COMPATIBLE" are entirely free of substances controlled by the RoHS Directive and does not constitute a warranty or guarantee that such products will comply with the specific laws and/or regulations adopted in any particular jurisdiction. ⁵RoHS Directive: KIOXIA Corporation defines "RoHS Directive" as the DIRECTIVE 2011/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Definition of capacity: KIOXIA defines a megabyte (MB) as 1,000,000 bytes, a gigabyte (GB) as 1,000,000,000 bytes and a terabyte (TB) as 1,000,000,000,000 bytes. A computer operating system, however, reports storage capacity using powers of 2 for the definition of 1GB = 2³⁰ = 1,073,741,824 bytes and therefore shows less storage capacity. Available storage capacity (including examples of various media files) will vary based on file size, formatting, settings, software and operating system, such as Microsoft Operating System and/or pre-installed software applications, or media content. Actual formatted capacity may vary.

Read and write speed may vary depending on the host device, read and write conditions, and file size.

Product specifications and design are subject to change without prior notice.

Product images may represent design model. Actual product may vary.

A kilobyte (KiB) means 2¹⁰, or 1,024 bytes, a megabyte (MiB) means 2²⁰, or 1,048,576 bytes, and a gigabyte (GiB) means 2³⁰, or 1,073,741,824 bytes.

IOPS: Input Output Per Second (or the number of I/O operations per second)

MTTF (Mean Time to Failure) is not a guarantee or estimate of product life; it is a statistical value related to mean failure rates for a large number of products which may not accurately reflect actual operation. Actual operating life of the product may be different from the MTTF.

To protect against accidental data loss, back up your data frequently on other storage media. KIOXIA Corporation does not warrant any data stored on the product.
